Principal	Centrum Kačero, s.r.o./Karimpol Group

[Project report online](#)

www.porr-group.com

Office real estate easily accessible in Prague-Kačerov.

The basement floors contain parking spaces for employees as well as storage and plant rooms for the climate control and fire protection facilities. Installation shafts, a heat exchange station, a diesel generator unit, the building's main server, communal bin rooms, a low-voltage switchboard and a transfer station are also located in the basement floors.

This project satisfied the criteria for LEED Gold certification.

Impressions

Image notes

1

Greenline KačeroV received LEED Gold certification.

The new construction is located in an area of the Prague district of KačeroV which enjoys great transport links.

3

Office building with seven upper floors.

The building is based on a reinforced concrete construction.

5

Improved value for neighbours.

Its height means this building doubles as an excellent sound protection barrier for neighbouring buildings.

7

Bon appétit.

The employee restaurant occupies an area of 887m².

2

Modern working in Prague.

Greenline KačeroV during the structural works phase.

4

Parking spaces for modern mobility.

Sustainable construction methods make this office building one of the most interesting office locations in Prague. Parking spaces for electric cars add the final touch.

6

Elegant and spacious.

The entrance hall of the office building exudes clarity and transparency.

8

Modern office atmosphere.

Individual offices are equipped with conference rooms and rest zones.
