Modern living on the Vltava.

The residential complex offers three residential categories: comfortable apartments in the standard floors, townhouse apartments reminiscent of living in a family villa, and luxurious penthouses. All the apartments are finished to the highest quality standards, and the room ceiling heights range from 2.8m to 5.5m. The apartments are equipped with designer bathrooms and spacious terraces, and some also offer the possibility of a built-in swimming pool. Private underground parking provides direct access to the townhouse apartments.
