Company	PORR a.s.
Type	Bridge construction
Runtime	04.2016 - 05.2017
Principal	Jihočeský kraj

[Project report online](#)

www.porr-group.com

Renewal of bridges over the Otava River.

This project was particularly demanding from a technical perspective, not least on account of this aspect, but also as works had to be carried out high above the river and many different technologies had to be applied.

Impressions

Image notes

1

Heavy with history.

After the Second World War, the bridge over the Otava River lay directly on the demarcation line.

2

Old bridge with new splendour.

For almost 100 years, this bridge has connected the banks of the Otava River. Since 2017, its old charm has shone with renewed splendour.

Do you have questions about the project or would you like to learn more? Feel free to contact us for further information.
